### SENSATIONAL SCENE

Husband of Dead Woman  
Assaulted By Her Brother  
In Synagogue.

The body of Mrs. E. S. Woolfman, of  
Superior, concerning the cause of  
whose death there have been dark sur-  
mises, was exhumed last night and  
taken to Superior by Coroner Dawnes  
for an autopsy. Mrs. Woolfman was  
buried in the Hebrew cemetery here  
Wednesday night last. The fact that  
the burial was at night involved the

The feeling among the Hebrews be-  
came more intense until yesterday,  
when the climax was reached in a dra-  
matic scene in the synagogue in West  
Superior. The order of the day was  
the place of worship during services,  
pushed his way to the altar, placed his  
hand on the Scriptures and was in the  
act of taking an oath that he was in-  
nocent of his wife's death, when he was  
struck senseless by a blow from the  
dead woman's brother. When the blow  
was struck others rushed forward and  
in the melee the prostrate man is said  
to have received several blows about the  
head. It was found at any rate, when  
he had been carried bleeding and still  
insensible to his father's home near by,  
that he had received several bad gashes  
about the head.

The outbreak in the synagogue was  
subdued by the efforts of the rabbi and  
the more cool headed of the congrega-  
tion, added to a strong police force.  
The officers of the police force. The officers  
rescued Woolfman and carried him away.  
The case was then taken to the  
Coroner Dawnes started for Duluth to  
exhume the body according to the order  
issued by District Attorney Ross at the  
request of S. Bloom, Mrs. Woolfman's  
brother, as stated in The Herald Satur-  
day. The order directed that the body  
be taken to Superior. The Hebrews in  
Superior were on the watch for this  
order, and the Coroner Dawnes, when he  
reached this side word had been con-  
veyed to the Hebrews over here.

The coroner's decision which in-  
formed him that the body could  
only be taken up in accordance  
with the laws of the state, and that no  
doubt the doctors could be allowed  
to touch the body. Further, the exam-  
ination must be made at the grave. The  
coroner and the delegation proceeded  
to the corner of First avenue east and  
First street, where there was an as-  
semblage of about 100 Hebrews. The  
latter told the coroner that they would  
conduct him to the cemetery as soon  
as ten suitable men to perform the  
rites of disinterment could be found.

The coroner agreed to wait, and the  
Hebrews took advantage of the time  
gained to apply to Health Officer Mu-  
rray for an order directing that the  
grave not be opened without a permit  
from himself. Coroner Dawnes waited  
for the ten men until he got tired and  
then he started for the cemetery, reach-  
ing it about 3 o'clock. He had just  
gotten to the grave when Detective  
Troyer appeared and forbade him from  
proceeding further.

Mr. Dawnes then returned to the city  
and a conference with the city offi-  
cials followed, resulting in his being  
given authority to go ahead. About 9  
o'clock last night he returned to the  
cemetery, accompanied by ten Jews and  
the grave was opened and the body  
taken out about midnight with the  
remonies attendant upon the Jewish  
faith. When the body had been  
placed in the hearse the ten men washed  
their hands and went to the edge  
of the grave to signify that they were  
through with the matter. The grave  
was then filled and according to Jew-  
ish custom, which forbids that a  
body be placed therein again.

The affair was then performed to-  
day by Dr. Conkey, representing the  
Duluth city authorities, and the  
Hebrews went to having the physician  
present. Detectives visited the Woolfman  
house yesterday and took possession of  
all the medicine bottles found there.  
The orthodox Jews, who are con-  
cerned in the matter, are an entirely  
peaceable and law-abiding set of peo-  
ple. The difference runs through the  
life and worship of the two sects.  
They have separate cemeteries, and on  
no account would the members of the  
orthodox sect allow one of their num-  
ber to be buried in a cemetery of the  
reformed Jews.

It is believed that it may be found  
that the fact that the body was in-  
terred without a permit from the au-  
thorities here is the germ of the whole  
trouble.

Serious Condition After Bilious Fever  
—How Cured.

EAGLE BEND, MINN.—"I was  
taken sick with bilious fever, and for  
three weeks I could not sleep and  
I could eat very little. The medicine  
which I took from the doctor did not help  
me, and I made up my mind to try Hood's  
Sarsaparilla. When I had taken two bottles  
I was well. Hood's Sarsaparilla has also  
cured me of headache, with which I was  
troubled." Mrs. AGA E. YOUNGBERG,

## NOT MUCH HIGHER

Little Change in the Price  
of Iron Ore Likely This  
Year.

### FIVE CENT ADVANCE

Adams Mine Ore Quoted Only  
That Much Above Last  
Year's Price.

Mine operators are already beginning  
to speculate on the probable market  
value of ore during the coming season,  
especially Mesabi. The price of old  
range Bessemer will, as usual, be fixed  
by the association. It had been hoped  
that Mesabi ore would show a marked  
advance, but if reports that reach here  
from Cleveland are to be relied on, little  
improvement can be hoped for.

George A. St. Clair, manager of the  
Sparta mine, is authority for the state-  
ment that the Consolidated people are  
offering Adams mine ore for \$2.55 a ton.  
This is only 5 cents more than Adams  
ore brought last season, which is not  
more than enough to pay the increased  
cost of production caused by the in-  
crease in wages of miners. The selling  
price of Adams ore will, of course, es-  
tablish the price for all other grades.

Mr. St. Clair said that Frederick T.  
Gates, president of the Consolidated,  
was responsible for the low prices that  
prevailed last year, although he would  
not then admit it, and that his policy  
would keep prices down this year. He  
is of the opinion that there is no good  
reason why Mesabi ore should not bring  
40 or 50 cents a ton more in 1909 than it  
did in 1908.

"Furnacesmen" said he, "would will-  
ingly pay that advance if it was asked,  
but of course they will pay their ore  
just as cheap as they can. The men  
who are bearing prices when they are  
urged to stand out for an advance  
contract for delivery in Australia.  
It will interfere with the growing ex-  
port trade. In this I agree with them.  
But with 40 cents added to the price of  
Mesabi, American iron and steel man-  
ufacturers would still have a big ad-  
vantage over their foreign competitors.  
Why, it has only been a few days since  
the Carnegie company was awarded a  
large contract for delivery in Australia.  
Its bid was \$2.55 a ton less than the  
lowest foreign bidder, which, it seems to  
me, is more than enough to allow of better  
prices for ore. Prices on the finished  
product in all the markets are high.  
The demand is greater than it has  
ever before, and yet Mr. Gates insists  
on keeping the price of iron ore down.  
The only reason for holding down the  
prices of iron ore when everything  
that is produced from it is rising rap-  
idly."

Will be continued.

Flaoten's Orchestra Will Give More  
Sunday Concerts.

Between 1500 and 2000 people were  
present yesterday afternoon at the Ar-  
my at the last concert of the series  
which Flaoten's Concert orchestra has  
been giving. The series has been even  
more popular than Mr. Flaoten had an-  
ticipated. It was announced yesterday  
that the orchestra has accepted a much  
encouragement that it has been decided  
to continue the concerts at intervals of  
one week.

Yesterday's program was made up of  
request numbers, and it indicated that  
the wholehearted devotion of the orchestra  
was a very good musical discrimination.  
There is a good deal of clap-trap about  
"An American Battle Scene." It is true,  
but this is a time of patriotism, and it  
could do no harm to let that sentiment  
for once appear stronger than the  
musical sense. "Patriotism," "Invitation  
to a Valse," "Peer Gynt" and "Lost  
Happiness" made a fine collection of  
numbers, and added to these were the  
encores "Largo" by Handel; Padre-  
rowski's Minuet, and Under the Bal-  
cony.

Miss Donovan was the vocalist, and  
the recital given her was an ovation.  
She sang "My Heart at Thy Sweet  
Voice," from "Samson and Delilah," and  
was twice encored. "Good Night, Sweet  
Dreams," Mr. Kretschmer played a fine  
clarinet solo and received an encore.

## AT THE EVACUATION.

Ray Snyder, a Duluth Boy,  
Saw the Spanish Leave  
Matanzas.

A letter has been received here from  
Ray Snyder describing the hauling down  
of the Spanish flag and raising of the  
American flag at Matanzas in Cuba on  
Jan. 1. Ray Snyder is a Duluth boy,  
about 17 years of age, who has been  
in the United States army for some time.  
He has been in the United States army

has seen the Spanish leave Matanzas, and  
he has seen the American flag raised.

This is the hottest New Year's day I  
have ever put in. It is so degrees in the  
shade. We witnessed something today  
that few Americans have been privileged  
to see. The Spanish left Matanzas, and  
the Americans marched in and the Span-  
ish flag was hauled down and the Amer-  
ican flag was raised. It was a very im-  
pressive ceremony. The Spanish num-

## THE FIGHT IS WARM

Struggle Over West Virginia  
Senatorship Develops  
Complications.

A MAJORITY OF ONE  
Republicans Have That Now  
But House Democrats  
May Unseat More.

Charleston, W. Va., Jan. 17.—The senatorial contest that is now pending in the West Virginia legislature surpasses in political importance anything of the kind in the history of this state. Delegations are here from all the counties in the interest of different candidates. With a Republican majority in the senate and a Democratic majority in the house, there is a tendency for each body to retaliate in partisan matters, especially in settling the contests for seats. The indications now are that, when the contests are all settled, the Republicans will have a majority of one on joint ballot for senator. The Republican senators say they will unseat one or two Democrats, and a member unseated in the house.

The majority in the lower house, talcates with the statement on Thursday that no business will be transacted until the election of a speaker, and can play out longer on the retaliation program.

The house has not yet notified the senate that it was ready to organize last Wednesday, and is now in its sixth day's session. No business will be transacted until the election of a speaker, and can play out longer on the retaliation program.

While the names of Scott, Atkinson, Caldwell, Bottenberger, Floyd, Gains, Hughes and others will be presented to the Republican caucus, it is believed to be principally between Commissioner of Internal Revenue S. H. Scott and Governor Atkinson. In whose case racing there are some who refer to Scott as the candidate of the United States, and Atkinson, in which list include Senator Elkins, and to Atkinson as the candidate of the state administration.

Senator Elkins has not been here, and is keeping out of the bitter fight, but his secretary is here keeping him advised as to the so-called "war on the Kanawha."

While there are many Republican dark horses that are being watched, none are more formidable than Judge Nathan Gott of the United States circuit court.

As the certificates of election were returned, the house stood: Democrats, 37; Republicans, 34. Two additional Democrats have been seated, so that the house now stands: Democrats, 39; Republicans, 32. The senate stands: Democrats, 17; Republicans, 17.

gives the Republicans one majority on joint ballot for senator, and if the house goes further in retaliation, then the senate will be able to retaliate, and there would be such a crisis as to bring about most serious complications.

**REMAINS LOYAL TO SILVER.**

**Col. Bryan Makes a Brief Speech at Denver.**

Denver, Col., Jan. 17.—Col. W. J. Bryan declared yesterday in a brief speech which he made at the public reception given to him by the Bimetallist league of this city, that the silver issue is still very much alive, he said.

"The cause lives because it embodies the hopes, the aspirations, the dreams of our people. It is a strong cause because people feel bimetallism; never mind need it because it is produced here. People eat because they need it, not because food has to be consumed. And so with gold and silver. They are important in the world's commerce because they are needed, and you can never destroy silver while it is needed."

"The farmer, the creator of wealth, knows that the gold standard is not stable nor honest. And if the gold standard should once be established, you may set it down that the date of bankruptcy is not far ahead. To restore bimetallism is to restore the party of peace, money and property."

"Those who advocate the gold standard as a rule, know that the gold dollar is not stable nor honest. And if the gold standard should once be established, you may set it down that the date of bankruptcy is not far ahead. To restore bimetallism is to restore the party of peace, money and property."

**GREAT NORTHERN ROBBERS.**

**Three of the Gang Arrested at St. Joseph, Mo.**

St. Joseph, Mo., Jan. 17.—Detective J. S. Hillings of the Pinkerton agency arrived here Sunday and recognized James Gilmore, John Allen and Harry Howard as the three men who robbed the Great Northern train between Minneapolis and St. Paul.

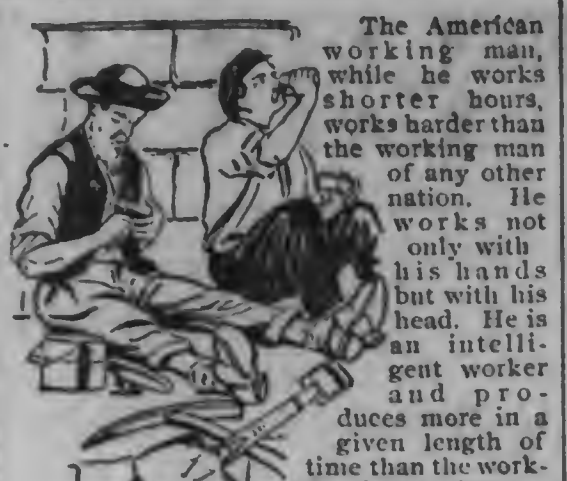

He will make a strong effort to take them back to that state for trial. Detective Hillings says the three men are well known criminals in the North, and are being held here on the charge of robbing James L. Davis, a lawyer, last November, and are supposed to have come here direct from Minnesota after robbing the train.

The Great Northern train robbery occurred on the night of May 15. It was the first of a series of robberies which have been committed in the last few months. The robbers blew open the local express safe and secured a few hundred dollars. The train safe could not be opened. Five men were arrested in prison. The trial of the others was continued.

**SURGICAL GENERAL'S REPORT.**

Washington, Jan. 17.—Surgeon General Sternberg has just returned to Washington from a visit of inspection of the United States army in the Philippines.

His purpose was to see that every arrangement is made for the protection of the health of our troops garrisoning the island before the expiration of the present duty season. He summed up the results of his trip as follows: "I find the sanitary conditions of troops now stationed in and near Havana, Matanzas and Pinar del Rio very good. The climate is very little serious sickness, but medical officers generally apprehend that in the amount of sickness as the unhealthy

The American working man, while he works shorter hours, works harder than the working man of any other nation. He works not only with his hands but with his head. He is an intelligent worker and produces more in a given length of time than the worker of any other nation. He not only exhausts himself physically, but mentally; the consequence is that while he is better fed and better housed, he is not, as a rule, as healthy a man as his brother working-man of European countries. Moreover, like all Americans, the American working-man is prone to disregard his health and frequently even takes pride in abusing it. It rests with American wives to protect their husbands in this respect. A little watchfulness on the part of the wife will frequently save her husband from a case of consumption, bronchitis, asthma, weak lungs, lingering cough, spitting of blood and disease of the throat and nasal cavities. Thousands have told the story of their wonderful merits in letters to Dr. Pierce. It may be had at any medicine dealer's.

"Your Golden Medical Discovery" cures a severe case of poisoning of the blood," writes Mrs. Sella Kice, of Coast, Santa Cruz, Cal. "That was two years ago and I have had a better case of any kind since."

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Peller" is a gentle laxative, two a mild cathartic. Dealers in medicines sell them.

**THE MARQUETTE MISSING.**

**An Atlantic Transport Company Liner a Week Overdue.**

New York, Jan. 17.—The Atlantic Transport company's liner Marquette, which left London for New York on Dec. 20, has not been reported. The liner is a week overdue. The Marquette is a 10,000-ton liner, the first of the new class which left the other side a week later than the Marquette. The Marquette should have sailed on the return trip to London last Saturday. Anxiety is felt for her safety as she has now been eighteen days at sea. She has a crew of 100 and is carrying passengers in the cabin list: Miss Phyllis Lyall, A. D. E. Lyman, wife and daughter, E. S. McCarthy, wife, and A. H. McCarthy, wife. There are no second-class or steerage passengers.

## FAMOUS AS A WRITER

John Russell Young, the  
Congressional Librarian,  
Dies at Washington.

TOURED WITH GRANT  
Became Famous as a War  
Correspondent During  
the Rebellion.

Washington, Jan. 17.—John Russell Young, librarian of the congressional library, died at his residence here at 8:45 this morning after an illness of several weeks.

John Russell Young has had a notable career as journalist, diplomatist, public official and the intimate associate of distinguished public men. He was born in Downingtown, Chester county, Pa., Nov. 20, 1841. The family moved to Philadelphia and he was educated in the public schools of that city. Later he went to New Orleans, where an uncle lived, and continued his school work in the New Orleans high school.

Returning to Philadelphia he secured a position on the Philadelphia Press and in 1861 was a copy boy, and from this time his newspaper work. When John W. Forney became secretary of the senate, he brought along Young, who by that time had become a fluent writer. When acting as Col. Forney's private secretary, Mr. Young continued his writing, but his description of the first battle of Bull Run that he won his fame as a writer. He was a correspondent of the Philadelphia Press and the Washington Post, and he was a member of the Red Cross expedition. On returning he became managing editor of the Philadelphia Press, which he resigned in 1865.

He had contributed to the New York Tribune and his pleasing style as a writer. He was a member of the Red Cross expedition. On returning he became managing editor of the Philadelphia Press, which he resigned in 1865.

## THE SAME OLD STORY.

Told on the Streets of Duluth and  
Elsewhere.

Some things you cannot tell too often. Repetition gives them added strength. The same old story is pleasant to hear. When it brings happiness to home. Things joy to the afflicted. Tells how burdens can be relieved. How the back can be raised. All the pains and aches removed; Proves how easily it is done; Duluth people tell this story: Friends and neighbors talk of it: They tell about their kidney ills.

How they suffered—how the cures came. What they think of Doan's Kidney Pills. Here's what a citizen says: Mr. H. Barr, of 26 Carlisle avenue, Duluth street, writes: "I would try Doan's Kidney Pills. I had constant, heavy pains through the small of my back and up under the shoulder blades. It was painful for me to stoop or lift anything heavy. I became stiff and sore from sitting or lying in any one position and in the mornings I rose feeling more tired than when I went to bed. The kidney secretions were irregular, frequent, highly colored and deposited a heavy sediment. I felt all run down and seemed to have no energy or ambition. I was also troubled a great deal with attacks of headache. I saw Doan's Kidney Pills highly recommended and purchased a box from the Duluth Drug company's store and used it. They helped me right away and in a short time I was entirely free of the trouble. I highly recommend Doan's Kidney Pills for all kinds of kidney complaints. My kidneys are now healthy, and by all dealers. Price 50 cents. Mailed by Postage. Doan's Kidney Pills, 50 cents. Agents for the United States. Remember the name, Doan's, and take no substitute."

## THE BRIDGE CONTROVERSY.

Question Is to Be Submitted Again to Outside Engineers.

The Tischer's creek bridge committee intend, it is understood, to submit the case to an outside expert, as was intimated in The Herald some time ago.

The city engineer's department has submitted Expert Hoff's theory in regard to the dead load pressure on the lower forward chord from wind strain to City Engineer Gustaf of Minneapolis, and Professor Randall, instructor of engineering at Cornell university, and both of them hold that it is unsound.

is stated, City Engineer McGilvray and Assistant Engineer Duffies said this morning that on Engineer Hoff's own figures, with the transferred wind strain assumed to exist by him eliminated, the bridge is not shown to have been strained to the limit of elasticity, and that hence the soundness of Mr. Hoff's theory on that point becomes the pivotal question.

**Died of Typhoid Fever.**  
Miss Mayme Roderick, of Pittsburg, Kan., died last evening at 8 o'clock at St. Mary's hospital, aged 19 years. Miss Roderick is a niece of Dr. Magie and came here to remain with him during his wife's illness, and was to have continued here all winter. For a couple of years she has had occasional attacks of appendicitis, and about two weeks ago was operated upon. She had almost recovered from the disease when typhoid fever set in. She was doing nicely, however, and yesterday afternoon was believed to be in no danger. In the evening a sharp turn for the worse took place and she failed to rally. Miss Roderick's parents are living at Pittsburg, Kan., and the body will be taken home tonight. Her father, coming down stairs and rushed out of the house, fearing that he would be punished. They also said that he is 11 years of age instead of 5.

**The Sheehans Explain.**  
The parents of Patrick Sheehan deny that they turned the boy out of the house. They say he stays out late at night and that when he came in late Saturday night he heard his father coming down stairs and rushed out of the house, fearing that he would be punished. They also said that he is 11 years of age instead of 5.

## HIS FINAL SUMMONS.

**Father Lawlor, Chaplain of St. Mary's Hospital, Dies—Funeral Thursday.**

Rev. Father Edward J. Lawlor, chaplain of St. Mary's hospital, expired at that institution at 12:30 o'clock this morning, of consumption. He was conscious to the last and passed away peacefully. He was attended by Rev. Father Corbinian, who performed the rites of the church for the dying.

The deceased was the third eldest priest in the diocese in seniority of service. He was 58 years of age and was born in Ontario, Mich., and came here with his parents in the '80s. He acquired part of his education in Canada and completed his theological training at St. John's university, Collegeville, Minn. He was ordained at St. Cloud. When the St. Cloud diocese was divided and the diocese of Duluth created, he elected to be assigned to this diocese.

At the time of the Hinckley fire, Father Lawlor had a charge at that place, and it was the experience that he passed through at that time that sowed the seeds of a decline in health that terminated in the mainly that ended his life. To his advice, courage and exertions during the fire many people owe their lives. On coming here, he was first made chaplain of the Sacred Heart institute. He went to the hospital as a patient first, and was made chaplain of that institution when the new building was occupied.

The funeral services will be held at the cathedral at 10 o'clock Thursday morning. The remains will be taken to the cathedral at 10 o'clock tomorrow and will lie in state there.

Father Lawlor's brother, Patrick Lawlor, and his brother-in-law and sister, Mr. and Mrs. John Regan, were with him when he died.

## THE DISTRICT COURT.

**Judge Ensign Resumes His Duties After an Absence.**

Judge Ensign resumed his duties in district court this morning, taking up the calendar of court cases in room No. 3. There were seven court cases on call for today, but within a short time the board had been cleared of all but two cases without one case coming to trial, and of the two that were left there was an application to place at the foot in one and the other will not be ready for trial for some days.

Yesterday afternoon Judge Moer directed a verdict for the defendant in the case of James Magie against the Scott & Holston Lumber company. One of the jurors who did not understand the system by which a jury was drawn and then dismissed after rendering a verdict at the direction of the court was considerably puzzled at the proceedings. He stood around for a few minutes after the jury had been dismissed waiting for someone to make a move, and then he spoke: "Come on, boys," he said, "let's get to our room."

"What for?" asked one of the other jurors.

"Why, to decide this case," he replied.

He was very much mystified when he was told that the case had already been decided.

This morning the case of Athol Morton Miller against R. M. Solvold was on trial. It was not expected to take up more than today. The suit is to recover damages to the defendant, and among it were \$321 pounds of lumber, by a mistake of the bookkeeper, according to the complaint, the bill was placed at \$54.50 instead of \$54.50. The defendant claims the property was sold for a stated sum.

There is but one more jury case to be tried, that of C. L. Wentz against the Metropolitan Life Insurance company, to recover \$5,000 damages for alleged false imprisonment. It is expected to appear for the plaintiff and Billson, Congdon & Dickinson for the defendant.

## WEATHER IN 1898

The Meteorological Summary Compiled from Records of Local Weather Office.

IT WAS A DRY YEAR

Rainfall Much Less Than the Normal—Temperature and Wind Figures.

Local Forecast Official H. W. Richardson has completed the meteorological summary of the Duluth weather bureau for the year 1898, and it presents a number of facts that cannot fail to be of interest. The mean or average temperature for the year was 40.9 degrees. This is slightly warmer than usual, the normal being 39.3 degrees. The highest temperature recorded was 90 degrees, on July 17, and the lowest 24 degrees below on Dec. 31, the last day of the year. The maximum temperature was below 32 degrees, the freezing point, on ninety days during the year, and was at 90 or above on only one day in the year. The minimum temperature was below 32 degrees on 131 days in the year. The mean or average temperature was below 32 degrees on thirty-five days and below 32 degrees on 132 days. The mean humidity was 76 per cent.

The year 1898 was a rather dry one. The total precipitation was 19.70 inches, while the normal is 31.01 inches. The greatest in any month was 3.32 inches, in June, and the least 0.19 inches, in December. The greatest precipitation in twenty-four hours was 1.20 inches on May 31.

The total snow fall during the year was 24.9 inches, as compared with a normal of 54.8. It was thus almost two feet less than usual.

The highest wind velocity was 56 miles, from the northwest, on Nov. 21. This broke the November record for twenty-nine years. There were thirteen days on which gales of 40 miles per hour or more were recorded. The prevailing direction of the wind was north-east. There was an average daily wind velocity of 9.8 miles, somewhat higher than the average, which is 7.0 miles.

There were during the year 108 clear days, 102 partly cloudy and 5 cloudy. The normal is 106 clear days, 141 partly cloudy and 115 cloudy.

There were 106 days when there was .01 inch or more of rain. The normal is 140, which is another proof of the dryness. There was snow on 37 days, hail on 3 days, and thunder storms on 23 days. Eleven auras were observed.

## COW STEALING CASE

**George Stacy on Trial at Present Time—Beach Is Discharged.**

This morning Judge Cant and a jury were engaged upon the trial of the case of George F. Stacy, who, with John Polom, was indicted for grand larceny in the first degree. Polom has pleaded guilty, but Stacy denies his guilt, and a jury was sworn to make a deliverance between him and the state of Minnesota this morning. The defendant is accused of the larceny of a cow from Ole Nelson's barn, in the town of Herman, just over the city limits, on the night of Dec. 3. Nelson testified through an interpreter that he found one of his cows gone on the following morning, and he followed his tracks some distance. The tracks of the cow were accompanied from the barn to the road by the tracks of one man, and beyond that by the tracks of two men. One of the tracks was made by shoe-packs, such as Polom wore, and the other by shoes. On the morning of Jan. 3 Polom sold the cow to Edward Downie, in the West end, and Stacy was in the barn at that time. He had also been in the day before, and had about the cow trade. The case was still on trial at noon.

It is customary for the prosecuting attorney in criminal cases to locate the crime within the county, in order that the court's jurisdiction may be shown. A local instance has occurred where the court dismissed a case because the state failed to show that the crime was committed in this state. Assistant County Attorney McClintock was proceeding to make a motion to dismiss the case, and he was considerably staggered when the witness said that he did not know in what county or state he lived in. The fact was proved by another witness.

This morning the larceny case against Fred Beach came to an end while the prosecuting attorney was on the stand, the case being dismissed by the prosecuting attorney, Mr. McClintock. Beach was indicted for stealing some clothes from his room mate, Gorman Ferguson, but when the complaining witness was placed on the stand it was soon apparent that Beach and Ferguson had been owning their possessions jointly, borrowing from each other freely and using each other's clothes without thinking of asking consent. Beach was ill, and while Ferguson was away he pawned the latter's clothes. On Ferguson's return he told him, and said he would redeem them in a short time, and Ferguson said it was all right. When this state of affairs came out through Ferguson's testimony.

Yesterday afternoon the jury in the larceny case against Frank B. Slocum returned a verdict of not guilty, and Slocum was discharged. The larceny case against Alexander Ploof was continued over the term on motion of the defendant's attorney.

## SUGGESTS THE MAYOR.

**G. G. Hartley Says He Should Be Chairman of Reception Committee.**  
G. G. Hartley, who was asked by the mayor to take the chairmanship of the citizens' reception committee, said today that he could not do so because he could not give it the attention which it ought to have.

"The place is one of great importance," said Mr. Hartley, "and I feel that the proper person to fill it is Mayor Truelsen himself. The principal thing necessary for the work of this reception committee is money and I don't know of a single man in Duluth who is better fitted to go among all the business men and get it than he. He can call in two or three business men to assist him and go from one end of Superior street to the other and business men will contribute for they have confidence enough in Mayor Truelsen to know that any money given him will be rightly expended. The whole secret of proper entertainment of the excursionists who come here is the raising of money. Minneapolis is right now at work preparing for next summer's carnival and now is the time to go to work in Duluth. The mayor should get a good executive committee—not too large—and they should spend this money where it will result in the most good. Every excursion that comes in here next summer ought to be met by the band and proper attention shown it. Other cities are already preparing for summer excursions and there is no reason why Duluth cannot get more than any of them. I cannot give the time that the place needs, but I will do what I can and will always be at the command of the service and contribute so far as I am able."

The summer hotel project is an important one and something is being done along that line. Transportation lines must be solicited for their aid and the business will have to be done on a cash basis. A site must be had and there must be money in hand for the whole thing so that there will be no mortgage foreclosure hanging over it. On that basis transportation companies can be induced to invest. There must be co-operation of the business men and transportation people."

## THE CAUSE REVEALED.

The Real Source of Rheumatism Is Finally Found by Scientific Discovery.

For years the medical profession and people generally have been inquiring "what is the cause of rheumatism?" Millions have suffered from its strange attacks, have endured in silence and still wondered what could have caused it. Like all great things in this world, the cause is very simple when clearly understood.

Uric acid in the blood is the one great cause of all this trouble, all this pain, all this annoyance, which so often wrecks the life.

But how does this uric acid get into the blood? That is the great question.

Uric acid gets into the blood, poisons the blood, and often ruins the life, because it is not expelled from the system.

But how can it be thrown out of the system?

In one way and one way only—through the kidneys. Is this not simple, is it not reasonable—it is true!

It is because the kidneys are not doing their duty that the uric acid remains in the body, gets into the blood, causes those terrible pains in the joints and muscles and frequently brings on more serious troubles.

There has never been but one way by which the kidneys could be kept in perfect condition and good working order, and that is by the use of that great modern discovery—Warner's Safe Cure. This has been proven conclusively by the millions of people who have used it, by the doctors who have been helped and by those who are in perfect health today. You know this, reader, if you will only stop and think. Recall how many times you have read the grateful words of men and women who have been in the depths of misery and who have been restored by using Warner's Safe Cure. There are untold numbers of people today who would be in an exhausted condition from rheumatism if it were not for a constant use of this great discovery.

**The Paulus Cantata.**  
The cantata by Olaf Paulus will be given at the Norwegian Lutheran church, corner First avenue and Third street, tonight, by the church choir. In addition to some excellent musical programs containing some of the best of the cantatas, there will be a lecture by Rev. G. H. Hovne, entitled, "In Luther's Footsteps." The cantata is said to be very beautiful, and the choir is well drilled in it.

**Chamber of Commerce Meeting.**  
At 4 o'clock tomorrow (Wednesday) the chamber will hold its semi-monthly meeting, and all parties holding membership cards are urged to be present. Matters of importance need attention. E. H. BRACE, Secretary.

## THE VOICE OF THE VOSE

The Vose Piano is so thoroughly good in every particular that it is hard to pick out any one quality as being pre-eminent. However, it cannot be denied that a prominent factor in the Vose's great popularity is its tone. Sweet, pure and lasting, the voice of the Vose leaves nothing to be desired, even by the most critical judges.

## FLOOD AT CLEVELAND

### A Break In a Dam the Cause of Much Property Damage.

Cleveland, Jan. 18.—About 1:15 this morning a dam under which a new bridge was being built, gave way. Back of the dam is a body of water, a mile and a half long, hundreds of feet wide, and in places 25 to 30 feet deep. The break in the dam has already allowed torrents of water to pour down on the flats below it. The property loss is already large, and if the entire dam gives way, which seems inevitable, it will be enormous. Along the lines whence the flood, if it comes, must flow are the big plants of the Standard Oil company, Cleveland Paper mills, the Flick Slaughterhouse and other manufacturing plants. There are but few people living in the track of the flood, and these were all warned and have sought safety on higher ground.

The cause of the flood is the recent heavy rains, the melting snow from the hillsides and a pond of several acres overflowing. Streams from several miles up the gully have added their quota of water. At 5 o'clock the right pier of the bridge fell, and the whole structure may go at any moment. No loss of life as yet. A large force of police and firemen are at the scene. The bridge is a structure 700 feet long and has been built but a few months. It cost \$350,000.

The break in the dam, which was an unsubstantial mass of earth, occurred while thirty men were at work in the artificial canal being sunk by the city engineers to allow the pent-up water to find a gradual and safe outlet. These men had a most harrowing experience and escaped with their lives with not one second to spare. The warning given them was not sufficient to even arouse their fears of what was happening, and hardly a man had looked up from the bottom of the deep trench in which they were working before the crash came and the awful flood had broken loose. The thirty men were twenty-five feet below the summit of the dam, laboring in the dim glow of few incandescent lights, when their foreman suddenly called to them to run for their lives. Most of them being foreigners and slow to understand English, but very few knew what was warning them and did not at first show any signs of heeding it and were literally dragged away.

The last man had scarcely left the trench before a mighty torrent of water swept down over the trench with terrific roar, carrying everything before it. A big force of men were at once sent to work making embankments in order to hold the waters in check as much as possible. A number of factories and manufacturing plants below the dam have suffered to some extent from the flood, but no great damage to them has occurred so far.

The north end of the Willson avenue bridge has been moved from its foundation half an inch, and engineers have given up hope of saving the structure. Five of its piers have crumbled away and sunk below the surface of the water. Two stone abutments on opposite sides of the dam on the west side of the bridge were at the very brink at 10 o'clock. The earth is slowly but surely giving way on all sides. A terrific collapse of the earth on the south side of the dam near the abutments occurred early today, carrying away fifteen feet of earth, carrying several telegraph poles along with it. A few moments later the water undermined an embankment 150 feet high and fifty feet in area, sweeping it down with the raging flood. Shortly after 10 o'clock the sixth abutment of the bridge gave way. The structure sagged, and then, with a tremendous report, snapped in two. About 130 feet of the bridge formed an incline plane to the ground.

## FIGHTING IN SAMOA.

### Followers of King Mataafa Were Successful in the Engagement.

Melbourne, Victoria, Jan. 18.—Advices received here from Samoa today, under date of Jan. 12, say there has been fighting there over the decision of Chief Justice Chambers in favor of Maitaitani, Tanu, the candidate in opposition to the king, in succession to the late King Maitaitani. It is added that the native followers of Mataafa, the rival aspirant to the kingship, were victorious. Seventy-three men were killed and wounded.

## DULUTH SEEKERS

George N. La Vague Would Like to Step Into Sam Fullerton's Shoes.

## OTHER APPLICANTS

Brady Wants to Be Surveyor General and Patterson Boiler Inspector.

From a Staff Representative.

St. Paul, Jan. 18.—(Special to The Herald.)—George N. LaVague, of Duluth, is the latest applicant for the position of executive agent of the fish and game commission to succeed S. R. Patterson. His petition is not yet on file in the governor's office but a verbal announcement of his desire for the place has been made and will receive consideration. Andrew McCormick, who has been considered a leading candidate for the place, had a long conference with Governor Lind yesterday afternoon in regard to his candidacy. He learned that considerable opposition to him had materialized during the past few days, but was not informed that it would necessarily prevent his appointment.

Robert Patterson, of Duluth, is also here looking after his chances for state boiler inspector. He also interviewed the governor yesterday afternoon, but did not receive much encouragement. The chances are that this place will go to a St. Cloud man.

John Brady is just now looked upon as a strong candidate for surveyor general of logs and lumber for the Duluth district. Some very positive opposition to him is being developed and it may result in his defeat, notwithstanding the fact that he has enlisted the support of some strong political influences outside of Duluth.

## TO REDUCE COURT TERMS.

Senator Baldwin Receives a Measure For Three Terms Annually.

St. Paul, Jan. 18.—(Special to The Herald.)—Senator Baldwin this morning received from some of his constituents at Duluth a copy of a proposed bill for reducing the number of terms of district court in St. Louis county to three, to be held the first Wednesday in January, in March and in May. The bill has not yet introduced the bill but is awaiting the expressed wish of the attorneys and people of St. Louis county in the matter.

## NOMINATIONS ALL CONFIRMED.

The Attempt to Defeat Corser's Confirmation Failed.

St. Paul, Jan. 18.—(Special to The Herald.)—When the question of confirming the governor's nominations came up in the senate today, Senator Miller moved that the nomination of John H. Lewis for state superintendent be referred to the committee on judiciary to determine when the office of the superintendent should be created. The vote was overwhelmingly against sending the appointments to the committee, but it was found that under the constitution any senator had a right to call for a division of the list, and Senator Shaalbach called for it.

George C. Lambert, for adjutant general; J. H. Lewis, for state superintendent; and J. J. Mosier, as surveyor general for the Stillwater district, went through without opposition.

Senator Lord asked that the nomination of E. S. Corser as surveyor general for the Minneapolis district be laid on the table. The question was agreed to, and Corser's nomination was confirmed by a viva voce vote.

Dr. Danielis of St. Peter, was confirmed without opposition as successor to J. H. Hick on the board of insane hospital trustees.

## A HURRY-UP ORDER.

Legislature Advises Hasty Action on the Peace Treaty.

St. Paul, Jan. 18.—(Special to The Herald.)—The house today adopted current resolutions strongly urging the United States senate to hasten the ratification of the peace treaty with Spain. The resolutions being supported by representatives of both parties and passing by a vote of 101 to 4.

## FAVORABLY ACTED UPON.

A Number of Measures Approved by House Committees.

St. Paul, Jan. 18.—(Special to The Herald.)—The house committee on general legislation favorably reported the Roberts bill relating to care of orphans. The Wood mechanics' lien bill a substitute was presented by the same committee. The Dyer bill to legalize foreclosure sales by advertisement was amended by the judiciary committee, which committee also favorably reported the Dunn bill for foreclosure by advertisement. The agricultural committee reported the Foss bill for free distribution of sugar beet seed to farmers favorably, but with some verbal amendments. The Staples bill to appropriate \$24,000 to pay the expenses of the Minnesota exhibit at the Omaha exposition was favorably reported by the appropriations committee, and some discussion followed on a motion to pass the bill under suspension of the rules, but Mr. Staples withdrew the motion and the bill will take its regular course. Flowman tried to reverse the adverse report of the taxes committee on his bill relating to assessment and collection of taxes, which seeks to tax mortgages of non-residents, but Chairman Laybourn explained that his committee had agreed that the bill, as before them, was not in such shape as would make a proper law, and after some further discussion the bill was indefinitely postponed.

Mr. West called up his concurrent resolution urging the United States senate to hasten the ratification of the peace

treaty and moved its adoption. Mr. Roberts moved an amendment that consisted of a fuller elucidation of the situation in the Philippines, and spoke in behalf of his motion. The vote on the amendment was 32 to 32, and the speaker voted aye, carrying the amendment. On roll call the resolutions were carried by a vote of 101 to 4.

## DAVIS IS NAMED.

Speaker Dare Formally Declares Him Chosen as United States Senator.

St. Paul, Jan. 18.—(Special to The Herald.)—In joint session of the two houses of the legislature at noon today, Speaker Dare presiding, the journals of both houses were read, and a resolution was passed by each yesterday, and the speaker formally declared Cushman Kellogg Davis to have been elected to succeed himself in the United States senate. Mr. Davis was unable to be present to return thanks in person, on account of his duties at Washington in charge of the peace treaty in the senate.

A telegram of thanks for and appreciation of the honor of re-election was read from Senator Davis.

## FIRE AT FOND DU LAC

Charles Gasper's Store and O. H. Peterson's Building Are Totally Destroyed.

Fond du Lac, Minn., Jan. 18.—(Special to The Herald.)—At 11:15 o'clock today fire was discovered in the roof of the store of Charles Gasper, which proved to be beyond control and soon burned to the ground, setting on fire the building of O. A. Peterson, immediately burned with the others, and caught fire at one time, but was saved by the prompt action of Mr. Heinenbeck who, with water handy, was standing guard and soon had the fire out. The goods of Mr. Gasper were all saved, some few things being somewhat scorched.

The cause of the fire is unknown, but it is supposed to have been from the chimney. Mr. Gasper was insured for the full amount of loss. Mr. Peterson had no insurance. His loss is about \$200.

## AGAINST MRS. MENDENHALL.

Old Suit Against Her In Eau Claire Is Revived.

St. Paul, Jan. 18.—(Special to The Herald.)—A special to the Dispatch from Eau Claire, Wis., says: Attorneys in the circuit court last night reopened a case commenced in 1890, in which Elijah Swift and D. R. Simons were plaintiffs and Kate B. Hardy defendant. The action was to recover \$1800 advanced Mrs. Hardy when she conducted the Hardy seminary in this city. The action has remained dormant all these years. The defendant, Miss Hardy, in the meantime, removed to Duluth, where she started Hardy hall. Recently she married Father McDonnell, of that place. A motion to strike the case from the calendar was denied.

## NO CHOICE YET.

North Dakota Legislature Takes a Ballot on Senator.

St. Paul, Jan. 18.—A Bismarck, N. D. special to the Dispatch says: The first joint ballot was cast today for senator. The vote stood: Johnson (Rep.), 22; Marshall (Rep.), 12; Roach (Dem.), 10; Little (Rep.), 8; Lamore (Rep.), 6; Hanna (Rep.), 6; Cummer (Rep.), 6; Cooper (Rep.), 6; Hannan (Rep.), 1.

## QUAY GAINING GROUND.

He Now Lacks Only Thirteen Votes For an Election.

Harrisburg, Jan. 18.—The vote in joint session for United States senator was: Quay, 112; Jenks (Dem.), 84; Dalzell (Rep.), 15; Stone (Rep.), 9; Stewart (Rep.), 9; Huff (Rep.), 5; Tubbs (Rep.), 4; Irvin (Rep.), 3; C. E. Smith (Rep.), 1; Rich, 2; Crow (Rep.), 1; Alvin Markle, 1. Necessary to choice, 125; no election.

## MAY BE THE PAUL JONES.

An Unknown Yacht Is Wrecked Near Scranton, Miss.

Mobile, Jan. 18.—A telegram to Lawrence Jones, who is here from Scranton, Miss., at 11:30 a. m., says: "Unknown yacht wrecked six miles from mainland. If anyone on board, should be rescued immediately, as would die immediately."

Mr. Jones leaves here on the Louisville & Nashville train at 2:15 p. m. for Scranton, which is forty miles south of here.

## EUGENE HALE RE-ELECTED.

Augusta, Me. Jan. 18.—Both branches of legislature met in joint convention today and re-elected Eugene Hale for United States senator was formally announced.

Forty-Four Thousand Dollars Ready For the White Earth Indians.

## ESTIMATING OF PINE

Indians Not Likely to Succeed In Having Work Stopped.

FROM THE HERALD WASHINGTON BUREAU.

Washington, Jan. 18.—(Special to The Herald.)—Chippewa Commissioner Darwin S. Hall reported to Commissioner Jones yesterday. He is here on routine matters connected with his office and will remain in Washington until the Chippewa delegation ordered here has concluded its business. Mr. Jones has transmitted the annuity funds to Agent Sutherland for the semi-annual payment on the White Earth reservation. The amount to be disbursed is \$44,000.

The Chippewa Indians on the Mille Lacs reservation desire to be reimbursed for improvements made on the lands which they have vacated, or are about to vacate. Gus Donahue estimates the improvements at \$50,000. It will require action by congress to pay this amount, and the Indians want the secretary of the interior to recommend that they be compensated. Mr. Donahue says if the action desired is not taken redress will be sought in the courts.

Gus Beaulieu called on the Indian commissioner, accompanied by Red Blank and Gay-shag-won-tosh, Bear Islanders. The Indians signified their willingness to sign for their annuities allowed under the act of 1889. These Indians have heretofore refused to accept their annuities, which now amount to about \$1000. It is not believed that the delegation of Chippewas will be successful in the primary object of their visit, which is the abolishment of the corps of estimators. Land Commissioner Hermann said yesterday that the Indians have as yet advanced no good reason why the department should abolish the corps. While the commissioner admits that the mill men do not bid upon timber upon the government estate, he estimates the value of the timber as a check upon operators, and in the end the work of the corps will fully justify its expense. The Indians assert that there will be large tracts of pine remaining at the conclusion of the public sales which will not be purchased by operators because they have ascertained that the pine has been overestimated. In answer to this the commissioner calls attention to the provision of the law that the timber remains after public sales shall be disposed of at its appraised value.

The national pure food and drug congress met in annual session in Washington today. Its action is of special interest to Minnesota, as it is probable that attention will be called to the adulterations of butter and cheese. Minnesota's representatives are Congressman Fletcher, of Minneapolis, and J. S. Van Antwerp, of the same city.

Deputy Marshal T. J. Sheehan is a candidate for appointment as United States marshal for Minnesota to succeed Marshal O'Connor. He has presented a petition signed by ex-Governor Hubbard, national committee chairman from Minnesota, and Nelson circuit and district judges and ex-Judge H. B. Nelson. In addition there have been numerous petitions from men in various cities throughout the state. There is no indication at the present time as to who will be appointed. Numerous candidates from Minneapolis and St. Paul and up the state are being named. Among the latter is Elmer Adams of Perdue Falls who, it is said, is relying upon the backing of Senator Nelson to secure the appointment. The present outlook is, however, that it will go to Minneapolis.

Representatives Morris, Fletcher, Stevens and McCleary called on the president today to urge the appointment of Representative Tawney as a member of the joint high commission to succeed the late Representative Dingley. Tawney is representative of the member of the ways and means committee best fitted for this position, and there is strong probability that he will receive the appointment.

An effort will be made to defeat the amendment allowing the secretary of the interior to locate the new Leech Lake school building when the Indian appropriation bill goes to conference. It is said the adoption of the amendment will be followed by the removal of the agency to Bemis and this has brought opposition from Tams Dixey, residents of Walker and the Brainerd & Northern railroad represented by Congressman Curtis of Iowa.

## ROW IN WEST VIRGINIA.

Governor Refused to Recognize the House as Organized.

Charleston, W. Va., Jan. 18.—The house attempted to notify the senate of its organization today, but that body adjourned without recognizing the committee. The governor still ignores the house organization, and has sent in no communications whatever. Republicans talk of making an organization of their own and appealing to the governor for recognition unless the Democrats accede to their demands that the two Republican contestees in the house be seated.

## AN ENORMOUS CONSUMPTION.

New York, Jan. 18.—A statement issued by the Ripan Chemical company, shows the sales of Ripan's Tablets during the year 1898 exceeded 70,000,000, and that the sales in January are at a rate exceeding 500,000 a day.

## FAVORABLE TO CHATEAU.

Washington, Jan. 18.—The senate committee on foreign relations today agreed to a favorable report upon the nomination of Hon. Joseph H. Choate to be ambassador to Great Britain.

## WINE OF CARDUI

**Nature's Way.**

**WINE OF CARDUI**

**Men and women make mistakes, but Nature never does. Her laws are as fixed as the stars. Her danger signals are always right. Nature's way is for women to menstruate every 28 days. If there is any impediment—if the flow is scanty—her signs of danger take the shape of dizziness, rush of blood to the head, fainting spells, cold feet and hands, pains under the shoulder blades and in the sides. There is much pain and suffering ahead for the woman who neglects Nature's cries of warning. Postponing things is almost suicidal. Wine of Cardui is the assistance that Nature requires in her work of cleansing the system. It is a medicine from the fields and the woods—a vegetable compound of roots and herbs, that acts altogether upon the organs of womanhood alone. It is good for all "female troubles". Its action is quick, and its benefits are permanent.**

**ABOUT HOROSCOPES**

**The Stars Will Foretell National as well as Individual Destinies.**

**And Believers Claim they Saw the Spanish Conquest Coming.**

There is nothing mysterious about horoscopes, and the reporter engaged in the laudable search for something encouraging—say a prophecy of wealth or greatness to show his landlady—only had his bumps disengaged because it came handy. The lady phenologist graciously told him all the good things he deserved to hear about himself.

These things he was aware of before but it is very comforting to have your opinion confirmed by an authority, says the Cincinnati Enquirer. Then, too, it is very interesting to make the closest acquaintance of that familiar man who has his bald head all laid off in little sections and to feel that you are at least a kin to him. One can't help thinking on observing those closely defined areas of baldness, how many little drawers. How handy it would be if they really did have knobs on so one could open at will and take out a hunk of caution, or acquisitiveness, say.

Phenology is to no nearly an exact cast a horoscope, based upon the scribbles of a fortune teller. It is a new aspect.

It seems that the reporter was born in the sign of Leo, with Mars in opposition. Mars is his guiding planet, taking its place in the house of Aquarius with the sun in the next room. Mars' room isn't right, but it will do. But it seems Aquarius is in the quarter of Labor, and heaven knows this is so far perfectly correct.

Jupiter is in quadrature in the quarter of Love, with Neptune right next door. Over in the quarter of Wealth Saturn is the only planet, with all three houses to himself, and as Saturn, it appears is sort of a general hoodoo, this is unconfessed.

But it is in the quarter of Wisdom that the reporter shines. That's where he was born. Right in conjunction with him he has Uranus, Venus and Mercury all in a bunch.

All this means that the reporter is to be blessed with great goods of wisdom, that he is to be a "leader of men." A stunner, when he is in the room to confabulate, and will be fond of the smell of the smoke.

A man who wouldn't be satisfied with such a prospective good time as that oughtn't to have a guiding planet at all.

But people are not the only beings subject to horoscopes. By no means. Everything which has a beginning may have its horoscope cast—on payment of the usual fee. Even the United States has one, and it's very important, too. The United States was born on July 4, 1776, and if the planets hadn't been in the position shown there is no telling what would have happened.

Dutch fishermen make astonishing catches by means of the following very simple plan: They put a number of live worms and insects in a bottle partially filled with water and then cork it securely. The bottle is dropped into the water, the fisherman sinking his line alongside. It appears that the sight of the wriggling contents of the bottle so excites the appetite of the fishy fiends that they fall easy victims to the baited hooks.

## LA VAQUE IS THERE

Went to St. Paul to Visit the Governor But Must Wait.

ALSO EMIL OLUND

The Senate Asks the National Congress to Hurry Up the Treaty.

From a Staff Representative.  
St. Paul, Jan. 20.—(Special to The Herald.)—George N. LaVaque, of Duluth, is in St. Paul today in the interest of his candidacy for executive agent of the game and fish commission. He arrived last night, accompanied by P. M. Graff, and they visited the capitol this morning. It was Mr. LaVaque's intention to call on the governor today, but as Friday has been reserved as legislative day, office-seekers and others than members of the house or senate are not admitted. Mr. LaVaque will accordingly wait until tomorrow to present his case. He said today that the idea of being a candidate had not been suggested to him until last Saturday, and that his petition had not been filed with the governor until yesterday. He said it was not his intention to antagonize any of the other candidates from Duluth for the position, and that he had only consented to enter the race when he was urged to do so by friends who represented that possibly none of the applicants up to this time had proven satisfactory to the governor.

**DULUTH VISITORS.**  
St. Paul, Jan. 20.—(Special to The Herald.)—Ex-Congressman of the Paul Olund of Duluth was a caller at the governor's office this morning. He said he was simply paying a social visit to L. A. Roseng, the governor's private secretary, and that his presence in St. Paul had no political significance. Luther Mendenhall was an interested observer in the house and senate this morning.

**SUMMARILY KILLED.**  
**Anti-Expansion Resolutions of Senator Stockwell So Used.**

St. Paul, Jan. 20.—(Special to The Herald.)—The senate devoted over an hour to the consideration of expansion and how to express an opinion on the subject. Senator Stockwell's resolutions against expansion were killed summarily, and then the house resolutions were speedily ratified. The peace treaty were adopted. Knatvold made a speech in support of the treaty. Fitzpatrick spoke with much force against them, particularly denouncing any close agreement with the Philippines. He opposed any land-grabbing by the government, taxation without representation, and for the annexation of the Philippines. Sheehan and McGovern thought such resolutions were severely proper before the legislature. The bill being called the resolutions were adopted, 25 yeas, 16 nays.

Among the new senate bills were these:  
Byrd.—Memorial to congress favoring the bill reimbursing soldiers for expenses incurred by sickness contracted in the service, who were passed under suspension of the rules.

**NEW HOUSE BILLS.**  
Laybourn Introduces One Legalizing Sheriff's Certificates.

St. Paul, Jan. 20.—(Special to The Herald.)—Among the new bills today were the following:  
Heimerdinger.—To prohibit blacklisting.

Corey.—For bounties for killing wolves.

Gutten.—Personal liability for the removing limit of indebtedness.

McNeill.—Requiring free railroad transportation by railroads of employees in care of live stock.

Laybourn, by request.—To legalize sheriff's certificates issued on foreclosure sales in certain cases, applying to action of St. Louis county sheriff.

Wether.—To amend law relating to labor liens on logs and timber, for attachment of same.

Brasletton.—To amend forest preservation law.

Mr. Hennessy introduced a memorial to congress in favor of the Hannu Payne steamship subsidy bill pending in congress, but action on it was deferred.

A few minor bills were disposed of and the house adjourned till tomorrow.

**A TRI-CITY CONFERENCE.**  
School Levy and Salaries for City Officers Discussed.

St. Paul, Jan. 20.—(Special to The Herald.)—A conference of the legislative delegations from St. Paul, Minneapolis and Duluth was held yesterday afternoon, at which two subjects were discussed of special interest to Duluth, but no definite action was taken on either of them—the first was relative to a bill providing for increasing the limit of the school levy in cities of over 50,000 population. Both St. Paul and Minneapolis are in need of additional funds for school purposes, and would like to raise the levy which each is now allowed by the special acts under which they are operating. In St. Paul more school buildings are required, and more money is required in Minneapolis to operate schools now in existence. Both cities would like to increase the levy 1 1/2 mills. The St. Paul levy is now only 2 1/2 mills. Duluth is now allowed as high a levy as is deemed necessary, and most of the delegation have expressed themselves as being opposed to increasing the levy for any possible increase in expenditures for school purposes. The whole question was referred to a committee of three, consisting of President Hawley of the Minneapolis school board; Attorney Churchill of the St. Paul board; and Senator Baldwin of Duluth.

The question of salaries for city officers was brought up by Gen. John

R. Sutherland of St. Paul, who proposed a bill fixing maximum salaries for officers of cities having a population of more than 50,000. The proposed bill leaves the fixing of salaries with the city councils, but places a limit on the amount they may pay. The schedule submitted is as follows: Mayor, \$2,000; mayor's secretary, \$1,200; comptroller, \$400; assistant comptroller, \$1,000; treasurer, \$500; treasurer's clerk, \$1,200; treasurer's bookkeeper, \$1,200; treasurer's clerk hire, \$500; aldermen, \$500; city clerk, \$200; assistant city clerk and clerk hire, \$400; city attorney, \$500; assistant city attorney, \$200; second assistant city attorney, \$120; third assistant city attorney, \$50; stenographer, \$50; president of fire board, \$50; five other members \$100 each; chief fire department, \$250; first assistant, \$150; second assistant, \$150; district chiefs, \$120; master mechanic, \$100; superintendent fire alarm, \$150; secretary, \$120; veterinary surgeon, \$120; president water board, \$50; other members, \$100; secretary, \$200; chairman board of public works, \$200; other members, \$50; city engineer, \$400; assistant, \$200; municipal judges, \$300 each; clerk of court, \$250; city clerk, \$200; chief of police, \$250; captains, \$120; lieutenants, \$100; sergeants, \$80; patrolmen, \$50. The office of building inspector is abolished, his duties to be performed by the city engineer.

No action was taken in this measure, but it will be taken up for further discussion at another conference to be held next week.

### WAS IN A TRANCE.

### Narrow Escape of a Wisconsin Boy From Being Buried Alive.

Milwaukee, Jan. 20.—A special to the Wisconsin from Sturgeon Bay, Wis., says: Jacob Grath, a son of Charles Grath, of the town of Nazawapec, had the terrible experience of nearly being buried alive. He had been ill for some time, and respiration having ceased, he was thought to be dead. Relatives were so convinced that he was dead that they ordered the undertaker to proceed to prepare the remains for the coffin. The "corpse" was placed in the coffin, and while the undertaker was washing the body the supposed corpse sprang up, dashed through the house, frightening every member therein, and became violently insane. Young Grath had been in a trance forty-eight hours. He was finally captured and on examination was taken to Sturgeon Bay for commitment. It is thought that rubbing of the muscles caused reaction, otherwise the boy would have been buried alive.

### MADE IT UNANIMOUS.

### McMumber Will Go to the Senate From North Dakota.

Bismarck, Jan. 20.—The Republican senatorial caucus this morning nominated P. J. McMumber as Republican candidate for the United States senate, and the nomination was made unanimous on motion of the Johnson leader at noon.

Later—Peter J. McMumber, of Richland, N. D., was elected United States senator by the joint assembly of the North Dakota legislature at noon today. He was the only candidate. On the formal ballot McMumber received 12 yeas, 12 nays, and 12 blanks. The election was unanimous.

### EAGAN'S CAREER ENDED.

### His Successor to Be Col. John F. Weston.

New York, Jan. 20.—A dispatch to the Herald from Washington says: Whatever may be the outcome of the Eagan case, it may be confidently stated that Eagan's career as commissary general of the army is ended. His successor, Col. John F. Weston, has already been selected. Orders have been telegraphed him at New York directing him to report for duty at once to the secretary of war. This means that he is ultimately to take charge of the commissary general's department. He cannot be nominated to the senate to succeed Gen. Eagan as commissary general until the latter has been dismissed or relegated to the retired list.

Col. Weston, who is to be commissary general, is one of the best known officers of the subsistence department. He was the chief commissary officer during the long campaign. He has been in the subsistence department since 1875, having previously served in the line of the army.

### LICENSE FOR MARRIAGES.

### Wisconsin Assemblyman Introduces a Bill for That Purpose.

Madison, Jan. 20.—The legislative session was short today, preceding the session of the Wisconsin assembly. The bill for that purpose was introduced by Assemblyman Stout.

Madison, Jan. 20.—The legislative session was short today, preceding the session of the Wisconsin assembly. The bill for that purpose was introduced by Assemblyman Stout.

In the assembly True introduced a bill requiring a license for marriages in Wisconsin. The bill conforms to the Illinois statute, and is intended to check the Milwaukee marriage industry.

A few bills were introduced in both houses this morning, the most important being one if Assemblyman Thomas for express company taxation. It provides for a tax of 3 per cent on their annual gross earnings in the state.

Both house adjourned till Monday night.

**NO CHANGE.**  
Madison, Jan. 20.—Three ballots were taken for United States senator in the Republican legislative caucus today. No change from last night except that one Stephenson and one Babcock were absent. The first ballot was won by Stephenson, 21; Cook, 15; Babcock, 16; Vanhook, 10. Caucus adjourned till Monday night.

**PATRIOT NUMBER THIRTEEN.**  
Harrisburg, Jan. 20.—The third ballot for United States senator today resulted in the election of John S. Stone (Rep.), 21; Stephenson, 21; Cook, 15; Babcock, 16; Vanhook, 10. Caucus adjourned till Monday night.

**COL. SEXTON IMPROVED.**  
Washington, Jan. 20.—The condition of Col. James A. Sexton, of Chicago, commander in chief of the G. A. R., was a trifle improved today.

## REDUCE THE TERMS

Effort to Be Made to Have Only Three Sessions of Court.

TOO EXPENSIVE NOW

Business Is Light and the Cost to the County Is Heavy.

At present the district court of this district holds five terms each year, beginning on the first Wednesday in January, March, May, September and November. For a year or two the business of the court has been steadily decreasing. Where terms used to occupy from six weeks to two months, they now occupy from two to three weeks. This has been the result of the business of the court being reduced to a minimum. Criminal business has held up fairly well, but civil business has gone steadily

Extra salesmen have been secured for tomorrow's big trade. Store open until 11 o'clock tomorrow night.

No Mother.... Should miss this opportunity of buying her boys' and little fellows' Clothes at **Half Price**

A store that lives up to its advertising, performs all its promises and never disappoints.

# THIS HALF PRICE SALE

Considering the low prices I bought this merchandise for is the greatest bargain festival in the history of Duluth. I am not looking for profits but trying to get money. I've got the stock to sell and am going to do it quick regardless of loss until I realize the amount of cash I require. Extraordinary buying opportunity of Men's and Boys' Clothing, Underwear, Caps, Gloves, Shoes, Fur Coats, Fur Robes and Rugs.

Two dollars worth of good, reliable clothing for one dollar.

## Exactly Half the Original Price....

This marvelous, incredible price cutting, real profit eliminating and many a slice cut off from original cost is not a mere play of words but sound, solid, truthful reductions. The kind that has filled our store for the past week with the brightest and keenest buyers at the head of the lakes.

Overcoats Exactly Half Price.  
Ulsters Exactly Half Price.

My Annual Inventory shows I have altogether too much merchandise in the different departments, and it must be turned into cash, no matter what the loss, hence this sacrifice.

LIFTERSNecessary For Big Stores to  
Be Very Vigilant In Holi-  
day Time.

## HAVE MANY TRICKS

Professionals Are Cunning  
and Clever—Some Cases of  
Stricken Consciences.

Members of the genus shoplifter were abroad in the usual force during the busy period preceding the holidays, and almost the entire time of one or more employees in the various large retail stores was spent in watching for these little thieves. The members of the fraternity are fertile in expedients, and it takes the resources of those who are employed to guard against them to prevent them from carrying off a respectable portion of the stock on the busy days, when the holiday shoppers are surging through the aisles and besieging the counters.

On one occasion, when every foot of space between the counters in one of the large stores was filled with a swarming mass of people, an employee of the establishment was noticed leaning fully against a post in a niche just out of the current, looking at the floor as if he was day-dreaming to kill time. He presented such a contrast to the other employees, all of whom were straining every nerve to respond to the demands upon them, that he attracted attention. The gentleman in question was not looking, yet it hardly seemed as if he had been employed by the firm for ornamental purposes only, and the curiosity of the bystanders was aroused, and with the view of satisfying it he pushed into a narrow aisle between the counters, and, as if resting before again plunging into the current, after greeting the bystanders, he turned and looked at the floor, and, apparently, became again immersed in reflection.

Clear over his head, casting his eye in the direction in which the other was looking, the latter espied a lady's shopping bag lying on the floor near by, apparently in imminent danger of being trod under foot, from which it had just been rescued by a stool. The lady was now and then evidently fonder from counter to counter, by this it was that, it became apparent, the gentleman of the post was watching as if he were a cat with a willow smile over his shoulder.

The latter watched, too, and pretty soon a woman who had been standing at a counter near began to move along with the crowd until she arrived at the stool under which the bag lay. Her gaze had been in the air until she reached this point, when her eyes sought the floor and traveled to the bag. She looked up and then stopped down and picked the bag up. As she straightened up she looked around hesitatingly, and then turned as if to move on. As she turned she became conscious of the gaze of the gentleman of the post fixed on her. If she had intended to move on she changed her mind. With an apparent effort to appear unobserved, she stepped to the counter and placed the bag on it, and then made her way toward another part of the store.

If the store she went, the gentleman of the post looked toward the latter and gave an almost imperceptible wink and a willow smile over his face. His mission then became apparent to the latter.

"That's the third time today that woman has found something on the floor that I know of," remarked the watcher. "It's an old trick," he went on in response to the latter's look of inquiry. "They pick out something lying on the counter that they think they would like and, if they can, give it a knock on a sly flip and send it on the floor. Then, after a little, they move on, and pretty soon they drift around another of the counters, and they pick the article from the floor, and the trick is played successfully offener than we should care to acknowledge, despite the fact that it is an old one."

"Yes, funny things happen. Recently a woman called at the office on a day when there was a special sale of a certain article. She had a piece of material that was on sale, which, she explained, a friend of hers had taken some days before. Her friend's conscience was troubling her about it, the woman said, and she had asked the friend to take it to the store and have it measured and pay for it. As her custom when a desire is shown to make reparations, the offense was overlooked and no questions were asked. When the piece was measured the woman said that the large stores told of a letter his firm received from a conscience-stricken individual in a town near Duluth containing a sum of money, part of which, it was explained, was to pay for some goods taken from the store. The balance of the remittance was for "the man who keeps a crockery store on Superior street, and in view of the fact that the letter was signed, inquiry was made at a number of stores, but at none of them was it recalled that any goods such as were described had been taken from the store, and the money has remained in the firm's hands."

NEW ROUTE  
TO THE SEACanadian Parliament Is Now  
Investigating Scheme For  
Georgian Bay Canal.

## VIA OTTAWA RIVER

Requires Little Canal Construction, Main Work Being  
Deepening Present One.

The Canadian parliament is now investigating a scheme for building a canal to connect the waters of Georgian bay with the St. Lawrence river by way of the Ottawa river, and it is said that there is every prospect that the plan will go through. The Canadian government has been asked by the promoters of the plan to guarantee them 2 per cent interest on \$1,000,000, which amount they expect to raise in England, and if the government makes the necessary guarantee the construction of the canal will be begun within a short time thereafter.

The canal will undoubtedly be an important element in transcontinental transportation, as it will enable boats of light draft to get to Montreal in much quicker time and at a great deal less expense than now. It will cut off Lakes Erie and Ontario, so that instead of going through these lakes from Lake Huron, the light draught boat will leave Lake Huron at Georgian bay and cut across the country to Ottawa, thence down the St. Lawrence to Montreal, a distance of 1200 miles, while by the proposed canal it will have to travel but 1600 miles.

A committee of the Canadian parliament has had the matter under consideration for some time. It has had produced before it an abundance of authorities tending to prove the benefit the canal will be to transportation from all kinds of railroad, marine, engineering and canal experts. Among others who were called to testify S. A. Thompson, formerly of Duluth, was before the committee and spoke at considerable length on the subject. He admitted that he was a "crank" on the subject of waterways, but he gave the committee some solid facts along that line, and made a convincing argument in favor of the proposed plan, showing that it was feasible and advantageous.

Capt. Alexander McDougall was also quoted by a member of the committee on the advantages possessed by the small boat over the great modern freighters, as well as on the wharves and docks and the cost of operating vessels.

The plan will be readily understood by a glance at almost any map of Canada, the great lakes. When Lake Huron and Georgian bay, the latter an arm of the former, are located, it is seen that at present, in order to get to Montreal, a vessel must pass southward from Lake Huron by Detroit, through Lake Erie, past Buffalo, through Lake Ontario, and by the way of the St. Lawrence river Montreal is reached. By the proposed route it is much simpler. A vessel need only head past the Manitoulin islands into Georgian bay, take the new canal and shoot across almost by a straight line to Ottawa and then on to Montreal.

The canal follows the course of the Ottawa river, and its promoters claim that only thirty miles of canal are needed. The rest of the distance is provided by lakes and rivers that afford

good navigation, though some places will need slight improvement. Experts have said, however, that the Ottawa river is especially well adapted for this purpose. There are several deep lakes that will help very much. The canal itself will be fourteen feet in depth. Fifteen miles of canal between Ottawa and Montreal are already built and in operation, and navigation is already established between these two cities.

MOVING WITH DELIBERATION.

The State Department Well Considering the Samoan Question.

Washington, Jan. 20.—The state department is moving with due deliberation, yet with firmness, respecting the adjustment of conditions in Samoa, and is directing all of its efforts to the use of lawful and regular means to settle succession at Apia. In fact it was this insistence upon the conformity of all parties to the tripartite agreement to the decision of the king, if this is established, that has caused the German candidate for the succession to be rejected. There are still a lack of official reports on the stirring events at Apia. A dispatch statement has reached the department through the United States dispatch agent at San Francisco, but so far as can be gathered it is not yet known just why Chief Justice Chinmori decided that Matua, the German candidate for the succession, to be rejected. It is suspected here that this decision was based on the use of improper influence by outside but interested parties in the election of the king. If this is established it would be sufficient to disqualify Matua, under the terms of the treaty, which expressly provides for an impartial choice of the natives.

The orders for sailing do not go out to Admiral Kautz until today. They were in the nature of instructions to make ready for a trip to Samoa. There were no positive orders to start.

CALIFORNIA MEAT.

It Is to Be Sent to Manila For the Soldiers.

San Francisco, Jan. 20.—The transport Scandia and Morgan City, which are soon to sail for Manila, will carry a large supply of California meat to feed the soldiers stationed in the Philippines. On the Morgan City 4000 cases of canned meats have been placed while 4000 pounds of frozen beef will be put on board the Scandia next Sunday morning. This is the first shipment of California dressed beef in any considerable quantity sent from her for army rations. The supply has been carried to the islands from New Zealand and the bulk of it still supplied from that source. The commissary department of this city has been making efforts to bring the trade to this coast.

COAL RATES REDUCED.

People of New Ulm Win Their Fight Against the Roads.

St. Paul, Jan. 21.—The hard coal rates to New Ulm and intermediate points between there and St. Paul are declared unreasonable by the decision of the railroad commission.

The commission orders that the joint rate from Duluth to the points along the Minneapolis & St. Louis and the Northwestern be reduced to the schedule fixed by them.

The rates established by the commission are apparently based on the \$1.25 rate from Duluth to St. Paul, and graduated from this city on a 10-mile basis.

The result of the order of the commission is to make a sweeping reduction over the territory southward of St. Paul as far as Hanley Falls and Boyd, and south to New Ulm.

ABUNDANCE OF PL.

Antigo, Wis., Jan. 21.—When the four printing offices of this place were opened yesterday all except one, the Journal, was in a demoralized condition. All the type was piled and portions of the week's edition of each office were destroyed. The papers that suffered from vandals were the Antigo Republican, the Weekly News and the Herald. German suspicion rests strongly in one direction and the owners of the three offices are confident they know the perpetrators.

THE DEATH OF BUZWAH, Whose Life Extended Over a Century.

Sault Ste. Marie, Jan. 21.—(Special to The Herald).—One of nature's noblest—Buzwah, an Indian, who, though not a chief, had much influence among his people—recently reached the happy hunting grounds after more than a century's sojourn in this region. Old Buzwah, as he was called, died at his residence on Drummond island, Tuesday, Dec. 27, 1898. By his death an ancient resident of that place is removed. Buzwah was undoubtedly well past the century mark. The only date attainable puts his age somewhere between 102 and 105 years. He died literally of old age. No special disease or sickness appeared to afflict him. About two or three years ago he began to lose some of his faculties, such as his eyesight, and to a certain extent his hearing, but retained his mental faculties until near his death. His strength and vigor were such as to make his death a hard one and painful to witness. He lost his speech a week or more before the end came, but it was evident that he retained his consciousness until the last.

Originally Buzwah was a stalwart, powerful man of over six feet stature. He is said to have met with a serious accident between forty and fifty years ago, which resulted in a long illness and the displacement of some of the vertebrae, which left him the short, sturdy little figure of some five feet four, with which residents of Drummond island were all so familiar. He was a mighty hunter, especially of bear. It is related that he not only found him, but after a long tramp he caught him, through some of the traps, and apparently killed him. Great as the distance was, he carried him unaided to his lodge and nursed him to life. He was not injured, only to fall ill, and remaining so for a long time, until he was able to get up and walk. He was then about eight or ten years old, notwithstanding which he still remained a mighty hunter. The memory of residents of the number of bears he has killed is something remarkable.

The Indians do not attribute his sickness to being caught in the trap, but say that one day having manifested some undue anxiety about a matter, he was "living apart," as they call it, he was so unfortunate as to step on a snake, and he was so badly hurt that he was unable to get up. He was then about eight or ten years old, notwithstanding which he still remained a mighty hunter. The memory of residents of the number of bears he has killed is something remarkable.

Business failures in the United States show quite a decrease from last week, numbering 262 against 304 a week ago; 269 in this week a year ago; 429 in 1897; 52 in 1896, and 38 in 1895.

R. G. Dun & Co.'s weekly review of trade will say:

A new year rarely opens brilliantly. Too many traders have to wait for the demand for their wares to come slowly. The industries resist fairly well the tendency to unlimited expansion, which some have to meet. Speculation in products is gaining but little, while stocks on an enormous volume of business results in continually higher prices.

Conditions favor continuance of the extraordinary foreign trade, which resulted in the greatest balance in favor of this country ever known. January this year indicates a similar excess of exports over imports.

Cotton fell to 6 cents, without satisfactory reason in the trading, but because of apprehensions that supplies of good quality might fall short.

Failures for the past week have been 28 in the United States against 374 last year, and 32 in Canada against 53 last year.

SWORD FOR ADMIRAL SCHLEY.

Brothers of Royal Arcanum Make Him a Present.

New York, Jan. 21.—Rear Admiral Schley was last night presented with a jeweled sword by his brother members of the Royal Arcanum at Carnegie hall in the presence of 1000 persons.

Governor Lowmire of Maryland, with a party and a large number of naval officers were present.

After receiving the sword with a graceful speech Schley buckled it to his side and shook hands with about 3000 men, women and children.

STROKEN WITH EPILEPSY.

Milwaukee, Jan. 21.—Henry C. Payne, national Republican committeeman of Wisconsin, suffered a stroke of epilepsy last night while dining at the Milwaukee club. While Mr. Payne has been subject more or less to these attacks for the past year or so, his friends feel considerable anxiety at this stroke, on account of the senile condition in this state, in which Mr. Payne, in view of his statement yesterday, may cut considerable of a figure before the struggle for the coveted prize is settled.

Dr. Mackie, who is the attending physician, makes a statement to the effect that Mr. Payne's condition is not at all serious.

The next number was the assault on the shield bearer, one of the wilder of the ceremonialists, but one that in many of the kivas has never been witnessed by whites. In places where it has been seen it seems to vary, but it has a general principle. First, there was a crowd in the kiva, a dance and a chorus. Then the spectators left the kiva and the chiefs of the different tribes entered.
